THE PESKY MOSQUITO
CONQUERED AT LAST.

Thousands of people will give thanks
this summer and be truly grateful to the
Kentucky Chemist who has suc-
ceeded in perfecting a preparation that
will, when applied freely, prevent mos-
quitos from biting you. This dis-
covery is pleasant to use, contains no
poisonous drugs and is perfectly harm-
less, and is known as Paracamp. First
Aid to the Injured. Even should the
mosquito get to you before applying
Paracamp an application of same will
stop the itching and prevent swelling
by neutralizing the poison. Mosquito
bites often produce malarial and other
dangerous fevers, for which reason it
is the duty of everyone to protect them-
selves as far as possible from the bites
of these annoying insects. Paracamp is
a combination of soothing, cooling
oils, which, when applied, penetrates
to the seat of the hurt, drawing out all
fever, soreness and inflammation
through the pores of the skin, for
which reason it is unequalled for the
relief of Sunburn, Prickly Heat, Chaf-
ing, Sore Feet, etc. Don't go through a
summer without a bottle of Paracamp
in your house. Don't take a trip to the
woods, lake or seashore without a bot-
tle of Paracamp in your grip. You
can use it a hundred ways to good ad-
vantage. Sold only in 25c, 50c and
\$1.00 bottles at all good drug stores.

Stock breeders, liverymen and
owners of horses generally in Hopkins-

alarmed over the appearance in that
community of several diseases among
stock, which in many cases are proving
fatal. There was never known in the
State to be such an outbreak of influ-

exists in Christian county. The dis-
eases are so prevalent that most of the
livery stables have been closed and
there are few horses available for any

No. 11.—500 acres of cotton land in Mississippi.
There is no section of country which offers so many
opportunities for profitable investment as the Missis-
sippi Delta which is now being described as "Pro-
sper Valley." The timber is becoming more valu-
able all the time for the reason that lumber people
from the North (where the supply of timber is low)
are constantly increasing their purchases of timber
lands in the South. When the timber is removed
the land is unequalled for agricultural purposes.
It will produce a large crop of cotton, and the
soil will grow any other kind of crop raised in
the temperate zone. The soil needs no fertilizers and
gives a yield which cannot be excelled; taxes are low,
and on all other points the Delta is a most desir-
able place to invest. This land is divided into
tracts ranging from 40 acres to the tract to
10,000 acres to the tract and prices from \$5 per
acre to \$10 per acre, according to location, etc. We
are authorized by the company who owns the land
to state that as other parties are considering the
purchase of these lands that we offer these tracts
prior sale, withdrawal from market or change
in price without notice. However, when the
tracts are sold they will be made up to the
purchaser to make an investigation. About
10,000 acres of this land has been sold by the com-
pany since we received this option. For further par-
ticulars call at our office.
